STACKERS CLUB

Attention families of first and second-grade students!
Mrs. Wadsworth is inviting your children to join the STEM Stackers Club. This club offers fun and engaging Lego activities and a unique opportunity for your child to learn science, technology, engineering, and math through hands-on building and designing. These activities are designed to improve problem-solving, critical thinking, and spatial reasoning, all crucial skills for their academic and personal growth. Moreover, they provide fun educational experiences your child will eagerly look forward to.

The club meetings will be held on Thursdays from 4:15 p.m. to 5:15 p.m. If you are interested in signing up your child, please return the interest form by Thursday, March 14, 2024.

23-24 PPE Club Acceptance Form (revised 8/8/23)

- No student will be considered for admission to a club without this completed form.
- Submitting this form to the club sponsor does not guarantee the student a spot in the club.
- Upon reaching the deadline for application, the club sponsor will pull the applications in a lottery fashion. Students who are selected will be notified in writing of their acceptance to the club. Students who do not make it into the club will be kept on a waiting list and may be called if openings arise later in the year.

Palm Pointe Club Rules

- Club members must follow Palm Pointe's TEAM expectations during meetings.
- Club members will be expected to arrive on time to club meetings, and to be picked up at the club ending time.
- No siblings will be allowed to attend club meetings with the club member, nor should they be left on campus unsupervised during the club time.
- The only club meeting absences that will be excused are if a student is absent from school for that entire day and it is an excused school absence.
- Club sponsors will allow students two chances regarding the above rules; if a student breaks any of the rules more than the two times, he/she will be dismissed from the club.

The rules were designed in the best interest of all Palm Pointe students. We hope the students will see this opportunity as a privilege and treat it as such. Most Palm Pointe clubs have a wait list of students who would like to participate.
